	<p>Australian Early Childhood Development Index (AEDI)</p> <p><i>Web link:</i> http://www.rch.org.au/aedi/index.cfm?doc_id=13051</p>	<p>AEDI was first implemented nationwide in 2009. Data will be collected nationally every three years for approximately 270,000 children in their first year of full-time school.</p> <p>The AEDI is a population measure of young children's development. Like a census, it involves collecting information to help create a snapshot of children's development in communities across Australia. Teachers complete a checklist for children in their first year of full-time school.</p> <p>The checklist measures five key areas, or domains, of early childhood development:</p> <ul style="list-style-type: none"> • physical health and wellbeing • social competence • emotional maturity • language and cognitive skills (school-based) • communication skills and general knowledge. <p>The AEDI website contains:</p> <ul style="list-style-type: none"> • information for communities, schools and parents and data users • resources such as <ul style="list-style-type: none"> ○ videos ○ newsletters ○ posters ○ fact sheets • AEDI results • AEDI research. <p>(N.B. see also entry under Research/Administrative datasets)</p>

	<p>Centre for Community Child Health (CCCH)</p> <p><i>Web link:</i> http://www.rch.org.au/ccch/index.cfm?doc_id=14857</p>	<p>The Melbourne Royal Children’s Hospital Centre for Community Child Health (CCCH) has been at the forefront of Australian research into early childhood development and behaviour for over two decades. The Centre is committed to supporting communities to improve the health, development and wellbeing of all children. CCCH works in collaboration with the Murdoch Children’s Research Institute and the University of Melbourne to integrate clinical care, research and education in community child health.</p> <p>The CCCH conducts research into the many conditions and common problems faced by children, such as obesity, language and literacy delay, and behavioural concerns, that are either preventable or can be improved if recognized and managed early. A particular focus of the CCCH's work is supporting and strengthening community-based professionals and organizations in their work with families to bring about the best outcomes for children. CCCH works in partnership with the Australian, state and territory Governments, the Murdoch Children’s Research Institute and the Telethon Institute for Child Health Research to deliver the AEDI.</p> <p>The Centre’s work focuses on five major themes:</p> <ul style="list-style-type: none"> • development, behaviour and mental health • obesity • language, learning and literacy • hearing • service development.
